IS YOUR IP66 BOX ALSO UV RESISTANT?

CHEMICAL RESISTANT

WEATHER PROOF

IP55/66 PROTECTION

IK06-08 RATING

UV RESISTANT

EASE OF INSTALLATION

The T Series range is manufactured from a high grade UV resistant polypropylene material which offers a high level of impact and ingress protection, making these ideal for indoor and outdoor applications.

The T Series range is a German engineered product, designed with ease of installation in mind.
Design features include - nylon connection strap between lid & base, quarter turn screw, sealed lid, multiple alignment markings & fixing points which allows installation without compromising the integrity of the box.

Large or small, classic or modern, for standard or special applications - variety is at home in the field of OBO adaptable boxes.
